

Make your own

# Christmas tree ornament

## You will need:

Pipe cleaners

lolly stick

twine

beads

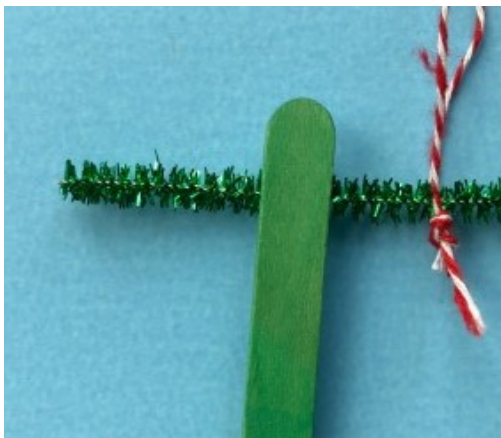

scissors

1

Cut a piece of twine and tie a knot in it for hanging.

Put the pipe cleaner through the bakers twine and wrap around the top of your lolly stick.

You want the pipe cleaner to stick out 1-2cm from the side.  
Trim the other side.

2

Next, start with the second branch. Make this one a little bigger and again, wrap around the lolly stick and trim the other side.

Repeat until you have 4-5 tree branches getting bigger each step.

3

Now start adding the beads to decorate your tree!
